

EAG WATER WASHABLE ANTI-GRAFFITI COATING

The Next generation of Anti-Graffiti Coatings offering the protection of a permanent system with the ease of cleaning of a sacrificial coating.

Product Features

-  The highest level of Graffiti protection.
-  A Permanent not Sacrificial coating, allowing the repeated removal of Graffiti.
-  Most Graffiti just washes off with water.
-  A single pack easy to use product.
-  Available in clear matt or clear gloss.
-  Ideal protection for difficult to clean porous substrates.

Suitable Substrates

Magic Bullet's **EAG** External Anti-graffiti coating has been specifically designed to combat the modern inks and paints used by today's graffiti vandal.

It is ideal on a variety of substrates both bare and previously painted. The Matt version is particularly effective on porous substrate such as brick concrete and stone, where it is almost invisible. **EAG** sealer may be required over some light substrates to minimise any colour change.

As a white spirit based product we do not recommend its use internally.

If you are in any doubt as to the suitability of **EAG** for your particular use please contact Magic Bullet Products Technical Department.

Application

EAG is supplied ready for use. Ensure the surface to be coated is clean, dry and free of any contamination or loose material.

Apply two coats by brush roller or spray. The second coat can be applied as soon as the first is touch dry, usually 2 to 3 hours. If spraying take care not to damage surrounding property with any overspray.

Do not apply below 5°C or to a frosty surface.

Coverage is 8 to 10 m² per litre but this will reduce dramatically on very porous substrates.

Caution, EAG is partially moisture curing so do not leave wet product in open containers.

Trial application

As with all our products we strongly recommend you carry out a small discrete hidden sample application to test the suitability of our **EAG** for your particular use.

Please refer to the relevant Product Health and Safety data sheet prior to any use.
