

Patio, Decking & Hard Surface Restorer (MRH)

Not only cleans and removes naturally occurring dirt and contamination, like algae, mould and blackspot, but also 'brightens' the substrates. Concentrated to ensure optimum performance.

Product Features

-  Removes naturally occurring contaminants from porous substrates.
-  Does not contain solvents, acids or caustic soda.
-  Works on porous and non-porous substrates.
-  Will 'brighten' paving and monuments.
-  Ideal Marble headstone cleaner & restorer.
-  Removes atmospheric contamination from roofs.

Suitable Substrates

Magic Bullet's '**Patio, Decking & Hard Surface Restorer**' (MRH) will clean wide variety of hard surfaces including – walls, floors, paths, roofs, decking, paving, boats and monuments.

It can be used safely indoors and out.

Can be used as a stand-alone cleaner but is not a suitable preparation tool prior to painting or without thorough rinsing and a trial application *

As with all cleaners MRH will struggle with the unique problems caused by heavily contaminated 'York stone'. If you have a solution to this particular problem please contact the Technical Department of 'Magic Bullet Products' where we would be delighted to share your knowledge!

Application

Apply the product liberally by brush or low pressure hand spray to saturate the contamination. Can be applied to a dry or damp surface. Allow the product to work for 30 minutes (light soiling) or 60-90 minutes (heavy soiling) then whilst still wet, thoroughly rinse off with clean water using a pressure washer to achieve the best results.

Do not allow to dry out prior to rinsing off. Stubborn or deep staining may require a second application.

To brighten paths and walls leave for up to 8 hours before removing.

Dilution/coverage – For heavily soiled areas, use neat at 2 to 3 m² per Lt.

For lighter soiling, dilute 1 part MRH with up to 3 parts clean water and apply at 3 to 5 m² per Lt.

Trial application

*As with all our products we strongly recommend you carry out a small discrete sample application to test the suitability of our '**Patio, Decking & Hard Surface Restorer**' for your particular use.

Please refer to the relevant Product Health and Safety Data Sheet prior to any use.
